Subject: Microsoft settlement.

As an American citizen I would like to settle this prolong and somewhat unfair litigation that has been proven of harming the public interest. Microsoft innovations has created enormous public benefit, and facilitated our life. I give you an example, I purchased Microsoft word, but my computer didn't have enough memory, after a month, I had a chance to return it, the store said " We usually do not accept this late soft weir return, but because of Microsoft policy we will accept it". The price was near \$400.00. Therefore, I urge you and ask you to please settle this unfair to public litigation as soon as possible.

Sincerely.
